

Travel Hangman Game

To play this game, one person thinks of a word. Under one of the hangman games below, that person should write a number of dashes that equals the number of letters in the word. For example, if the word is MONKEY, he or she would write _ _ _ _ _ (6 dashes). The other person then tries to figure out what the word is by guessing it one letter at a time. When the person guesses a correct letter, that letter is written on the dash where that letter belongs. When the person guesses wrong, a body part should be added to the hangman. In either case, make sure the guessed letter is crossed off the alphabet next to the game. The person keeps saying letters until they guess the word (they win) or until there is a full hangman – head, body, 2 arms, and 2 legs (they lose).
